CEM CORPORATION

METHOD NOTES

Parameters

Category: Dairy
Stage 1: Constant Weight
    iPower Mag: 100%
    iPower IR: 000%
    Temperature: 100°C
Weight Compensation: ON

Recommended Systems

SMART 6

Equipment

CEM Square Glass Fiber Sample Pads
Pipette

Sample Preparation

Stir well before analysis.

Procedure

Tare 2 glass fiber sample pads. With the pads still on the balance pan, puddle 3 grams of sample in the middle of the top pad, do not cover. Place the pads containing the sample on the balance pan, close cover and press START.

Precision Range:

Moisture ±0.05%
